They are the main problem that clipping is no longer in the Debuff list so I cant remove it just add it and remove it again not solving the problem either.. I am currently looking for team members to help bring this to the world: 0 License: 0 License: Freeware flexbar Editor 1.. Kalibans Class Loot List provides ratings for all raid loot with respect to its suitability for different classspec combinations.. They main problem is that MOW is not in the debuff list anymore so I cant remove it - just adding it and re-removing it again doesnt solve the problem either.. If you keep your hand here its going to feel really weird learning how to move with the keyboard because youll be using your two weakest fingers most of the time.
